

## Disclosure:

2021 / 1<sup>st</sup> Quarter Strip Review online learning activity

**By clicking below I attest to having read the following disclosure information.**

**Quarterly Fetal Strip Review-  
Internet Activity Enduring Material  
Course Director: M. Sean Esplin, MD**

### **Purpose/Goals:**

All Intermountain Healthcare Labor and Delivery RN's are required to become NCC EFM certified and to maintain certification. These activities are an opportunity to remain current in your knowledge of fetal monitoring and fetal strip interpretation.

### **Target Audience:**

The activity is designed for Labor and Delivery RN's and MFM/antenatal testing RN's

### **Objectives:**

- Review current NICHD terminology related to fetal tracings
- Identify appropriate interventions for fetal tracings
- Use effective communication with healthcare team members when communicating concerns related to fetal tracings

**Release Date: 01/31/2021**

**Expiration Date: 01/31/2023**

### **Credit Designation**

Intermountain Healthcare is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. This activity has 1.5 nursing contact hours. Successful completion is viewing the digitally recorded segment, passing the post-test at 80%, and completing the evaluation. No commercial support is being received for this event.

No individuals in a position to control content for this activity has any relevant financial relationships to declare.
