

Management of Diabetes for School Nurses

NEW ➤

Friday, July 30, 2021*

8:00 am - 4:45 pm, MDT

Primary Children's Hospital

Eccles Outpatient Services Building
81 N. Mario Capecchi Drive
Salt Lake City, Utah 84113

IPCE Contact Information

ipce@imail.org
801.507.8470

Technology education this year

- Baqsimi (Nasal Glucagon)
- Gvoke (prefilled Glucagon syringe)
- Tandem (T-Slim) Control IQ pump
- Medtronic 770G pump
- Libre 2 CGM

Updates on other insulin pumps,
CGM's, and meters

**Due to COVID-19, the conference may be
rescheduled or cancelled*

Target Audience

This workshop has been designed for School Nurses to increase their knowledge and provide practical application of the information taught when caring for children with diabetes in the school setting.

Program Outcomes

- Management for children with Type 1 and Type 2 Diabetes
- Practice operating the most current blood glucose meters
- Practice insulin delivery, loading and programming insulin pumps
- Calculate carbohydrate grams for typical school lunches and snacks
- Ability to respond to situations that arise with diabetes management at school

REGISTER >
