

2023 Pediatric Asthma Virtual Update

Thursday, September 7, 2023 1-3pm (1300-1500)

Target Audience

Nurses, APPs, Physicians, Respiratory Therapists that care for pediatric asthma patients in the Emergency Department (ED) and Inpatient Units

Learning Objectives

- Describe updates to asthma care with the updated tools and resources for respiratory care
- Discuss the changes in updates to the pediatric asthma care process model with the new 2020 NHLBI guidelines to operationalize the tools and resources with the new practice.
- Evaluate pediatric asthma guidelines and recommend implementation strategies for referral to pulmonology services as well as barriers to SMART therapy.
- Define opportunities for pediatric asthma quality improvement in the ED and present accomplishments for 2022.
- Describe quality improvement opportunities for pediatric asthma care in the PICU to reduce asthma transfers to the PICU.
- Define the nurse's role in implementing the new 2020 NHLBI guidelines into practice.
- Evaluate and review Data for 2022 and opportunities for improving the metrics.
